

Revolutionary

B&D Independence, the leader and most trusted name in transfer seating for decades, now offers the world's first vertical docking console.

HighTower boasts a sleek and streamline design while its brackets are made to meet the needs of individual wheelchairs and vehicle systems. This is good form and functionality all in one small but powerful package.

The revolutionary HighTower side-mounted docking console eliminates ground clearance concerns and improves stability. This means an operator can move about freely and drive with confidence from their powered wheelchair.

We were founded in 1981 on the premise that quality and service would never be compromised. These basic principles have served us well, and today B&D Independence, Inc. is the recognized industry leader in Transfer Seat Bases.

B&D Independence, Inc. Limited Warranty

Hightower Docking Stations manufactured by B&D Independence, Inc. are guaranteed to be free from defects in material and workmanship for a period of 2 years from the date the product is placed in service. B&D Independence will repair or replace, at our option, any factory installed part that is found to be defective. For a period of 1 year, limited labor charges may be covered by this warranty. Warranty claims must be submitted to B&D Independence during the warranty period by the installing dealer. Some limitations apply.
